

New Application Worksheet :

Company: _____

Phone: _____ Fax: _____ Date: _____

Name: _____

Title: _____

Power Beam Application: _____
_____ (provide sketch)

Horizontal: _____ Vertical: _____

Operation Required: Air _____ Pressure Available: _____
Oil _____ Pressure Available: _____
Electric _____ Voltage: _____

Weight of load extend: _____

Weight of load retract: _____

Angle of load from horizontal: _____

_____ Load supported by Beam

_____ Externally Supported

Dimensions of load:

Width: _____ Length: _____ Height: _____

Orientation of load to centerline of actuator

- _____ (provide sketch)

Stroke length required: _____

Required time to extend: _____

Required time to retract: _____

Dwell time at extend: _____

Dwell time at retract: _____

End-to-end stroke: _____ OR mid-position stop: _____

Accuracy required: _____

Cycles / Hr: _____

Hrs / Day: _____

Days / Year: _____

Ambient Temperature: _____

Environmental: (dirt, dust, liquid, heat): _____

Space limitations for actuator: _____

Other Notes: _____

Provide sketch or attach drawing as best suited.
